Toys: Did you know that rabbits need mental stimulation. Best way is through foraging and playing with toys. We all know you can buy toys in big box stores but on our website and other small business sites you can order unique fun toys for your fur friends too. Are you on a budget? Empty Toilet paper inserts can be stuffed with hay and treats. Cat toy balls are always fun and so are stuffed animals. (No glass or button eyes). Apple sticks and natural pumice are great for their teeth. Give your bun lots of attention and lots of space to spend time hopping and playing. Best time of the day is dusk and dawn.
